CSS Basics 1

CSS Basics

Exercises

1. Create a table as shown below. Use pseudo-class selectors to highlight the odd rows.

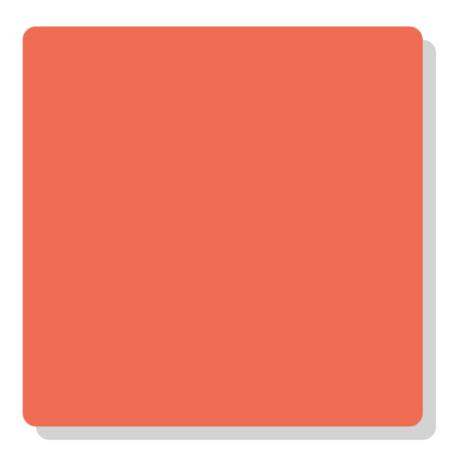

Country	OrderID	Order Amount
USA	1000	\$1,300
USA	1001	\$700
CA	1002	\$2,000
CA	1003	\$1,000
Total		\$5,000

- Background color of the heading cells: #427fef
- Background color of odd rows: #eef7ff
- Border color: #c4dcf3

You can find the solution in the zip file attached to this lesson in the table folder.

CSS Basics 2

2. Create a box as shown below.

• Dimension: 300px x 300px

Background color: tomato

Shadow color: lightgrey

You can find the solution in the zip file attached to this lesson in the ${\bf box}$ folder.
